

City of Sydney Council – Work Permits

Work permits may be required for installation and maintenance of signage for properties that fall within the City of Sydney boundary.

A permit is **NOT** required if the installer/s and equipment can be contained completely within the property boundary throughout the whole installation process.

A permit **IS** required if the installer/s and equipment will be on council land during any part of the installation process.

The cost of a council permit is **\$126 inc GST**. This covers the process of completing an application, lodging through council and the permit.

Please allow approx 3 working days for council to respond. VFX will install on next service day after receiving approval.

Please ensure clear installation instructions and/or a photo diagram is supplied to assist with this process.
