7 Giant Roll Up	1000	980x2850	980x3080

PRICES START FROM \$300 INCLUDING ARTWORK

SIZING INFORMATION:

Please note that all Roll up inserts are made slightly smaller (10mm on each side) than the base. For example, an 850mm Roll Up will have an 830mm insert (visual area). This is so that when the insert is rolled in and out of the base, the risk of catching or damaging the insert when rolling and unrolling is virtually eliminated.

LAYOUT:

During the design process, ensure that text and logos are kept well within the visual area.

Please remember to allow:

- **200mm** bleed at the bottom of the artwork to allow for the graphic to be connected to the frame.
- **30mm** bleed at the top of the artwork to allow the graphic to be connected to the top bar.
- **10mm** bleed on the left & right for trimming purposes.
